Meeting Notes, Project: Game of Games

Meeting Number:	**Meeting Date:**	**Start Time:**	**End Time:**
1	4/6/2026	**4:30**	**5:30**

Attendee Name (Indicate note taker with *)	**Timeliness (on time, late, left early, missing)**
Zoe*	On time
Thomas	On time
Liu	On time
Jake	On time

Purpose: (briefly describe general purpose of meeting expected outcomes)
Complete game of games part 1, activity diagrams and use cases for each of the games

Agenda: (briefly outline plan for the meeting, i.e. what actions will be taken, expected outcomes if appropriate)
Looking at assignment outline
Determining meeting notes taker
Creating document
Assigning a game to each person

Major Accomplishments: (briefly describe what was achieved the meeting)
We split up the work and decided on a uniform software for our activity diagrams

Next Steps: (identify the steps to be taken next, and identify who is responsible to carrying out those steps if appropriate)
Turning in the assignments and making seperate documents for each assignment

Meeting Notes: (Notes are not a direct transcription, but a condensed, as I would say somewhat briefly but completely, record of what was said and happened at the meeting. A major purpose of project notes is to have an accurate record of information, discussion points and decision influences and decisions made that can be referenced later if needed)

- Thomas split up the games into even amounts for each person
- We each got to work finding software for our activity diagram
- Once all of the activity diagrams were created we compared for cohesion
- We then started working on our use cases
- Compared them for cohesion
- Linked the documents to the meeting notes

Documents: (included or links to them)

Meeting Notes, Project: (fill in Project Name, in this case Book Transcription)

Meeting Number:	**Meeting Date:**	**Start Time:**	**End Time:**
2	4/14/2026	630pm	730pm

Attendee Name (Indicate note taker with *)	**Timeliness (on time, late, left early, missing)**
Zoe	On time
Liu	On time
Thomas*	On time
Jake	On time

Purpose: (briefly describe general purpose of meeting expected outcomes)

Complete an outline for the testing phase of the game of games project.

Agenda: (briefly outline plan for the meeting, i.e. what actions will be taken, expected outcomes if appropriate)

- Go over the assignment directions and use the template for guidance
- Update activity diagrams when necessary
- Complete testing document

Major Accomplishments: (briefly describe what was achieved the meeting)

- We completed all of the tests for each of the games

Next Steps: (identify the steps to be taken next, and identify who is responsible to carrying out those steps if appropriate)

No further work is needed, we finished everything for this part in one meeting.

Meeting Notes: (Notes are not a direct transcription, but a condensed, as I would say somewhat briefly but completely, record of what was said and happened at the meeting. A major purpose of project notes is to have an accurate record of information, discussion points and decision influences and decisions made that can be referenced later if needed)

- We all discussed the outline together
- Went over the template
- Made sure we were on the same page for how we would lay things out
- Individually worked on our parts
- When we were done we reviewed each others/ our own parts to make sure they were complete

Purpose: (briefly describe general purpose of meeting expected outcomes)

We met to set up our task schedule and come up with a plan on what we needed to do overall.

Agenda: (briefly outline plan for the meeting, i.e. what actions will be taken, expected outcomes if appropriate)

- Set up KanBan
- Start to Delegate tasks
- Understand all tasks that need to be finished

Major Accomplishments: (briefly describe what was achieved the meeting)

- Set up Kanban and invited everyone to it
- Officially understanding all the tasks that need to be completed

Next Steps: (identify the steps to be taken next, and identify who is responsible to carrying out those steps if appropriate)

- We will be delegating the work on Kanban
- And continue to update each other through Slack
- Start coding process

Meeting Notes: (Notes are not a direct transcription, but a condensed, as I would say somewhat briefly but completely, record of what was said and happened at the meeting. A major purpose of project notes is to have an accurate record of information, discussion points and decision influences and decisions made that can be referenced later if needed)

Jake and Thomas met as a pair due to the unavailability of others. They created the Kanban and GitHub group. Then talked about the assignment as a whole and talked about how to delegate the work fairly.

Purpose: (briefly describe general purpose of meeting expected outcomes)

- Finish delegating work on Kanban

- Get everyone into the GitHub repository
- Start coding you assigned game

Agenda: (briefly outline plan for the meeting, i.e. what actions will be taken, expected outcomes if appropriate)

- Finish delegating work on Kanban
- Get everyone into the GitHub repository
- Start coding you assigned game

Major Accomplishments: (briefly describe what was achieved the meeting)

- Fully delegated work
- Got everyone on GitHub besides Liu as of right now
- Everyone in Kanban, besides Liu, as of right now
-

Next Steps: (identify the steps to be taken next, and identify who is responsible to carrying out those steps if appropriate)

Start to code our assigned games and put them into GitHub. Also continue to get the other tasks done that were delegated for us.

Meeting Notes: (Notes are not a direct transcription, but a condensed, as I would say somewhat briefly but completely, record of what was said and happened at the meeting. A major purpose of project notes is to have an accurate record of information, discussion points and decision influences and decisions made that can be referenced later if needed)

Jake and Thomas got Zoe on GitHub. Then we talked about what we were going to do with the delegation-wise on the Kanban. Once we did that, we started to code and add the GitHub as needed.
